Date	Task	Time involved	Team member responsible (student initials)	Work Accomplished
			TECHNOLOGY STUDENT ASSOCIATION WORK LOG	
3/14/2025	Planning	2 hours	AR, JH, KS, PS, SH	Collaborated as a group to create the fundamental ideas for the website and discussed each group member's strengths and weaknesses.
3/24/2025	Repository creation	1 hour	KS, PS, SH	Created a GitHub repository and added a VUE framework for the website. However, the VUE framework was extremely glitchy so switched to node.js & tailwind. Created deployment project with Render and ported repository.
4/1/2025	Planning & SIte Design	3 hours	AR, KS, PH, SH	Brainstormed new ideas for the website and made styles better. Added more functionality including reservations and making a main file and an about us file. Changed styling to a darker color.
4/11/2025	Site design	2 hours	AR, KS, PS, SH	Added verification system and full time for reservations.
4/13/2025	Site design	2 hours	KS, PS, SH	Added even more functionality (made a reviews page).
4/16/2025	Site design & Documentation	2 hours	KS, PS, SH	Added our approach page to highlight sustainable and farm to table approach. Made a logo and a menu (including images).
4/18/2025	Site design	3 hours	KS, PS, SH	Made a better logo; one for mobile and one for desktop. Created citations for each image made.
4/21/2025	Site design	3 hours	SH	Renamed email to be more specialized and changed phone number to a real phone number (PS's phone number). Also added some cool CSS touches (such as a spinning wheel around a leaf in our logo). Also added an admin page. Added phone layout for mobile users.
4/25/2025	Site design	4 hours	AR, SH	Made the design more sleek and fixed many visual bugs. Added final touches and made the URL more official.
4/26/2025	Site design	4 hours	SH	Added more finishing touches and finished all documentation.
